1. Mr. Houston and I accompanied [] in his appearance before an open session of the Internal Security Subcommittee of the Senate Judiciary Committee.

STAT

2. Note: One day during the week I talked with Mr. Borden, Executive Director of the staff of the Joint Congressional Committee on Atomic Energy, in response to his query as to any action CIA might be taking in response to Senator McMahon's letter of 28 September 1951. Mr. Borden stated that Congressman Jackson of the Committee had requested such information. I informed Mr. Borden that as the material he desired was operational, CIA would not wish to comment on it in any way. Mr. Borden concurred in this position.
